

Practice privacy notice

Friary House surgery has a legal duty to explain how we use any personal information we collect about you, as a registered patient, at the practice. Staff at this practice maintain records about your health and the treatment you receive in electronic and paper format.

What information do we collect about you?

We will collect information such as personal details, including name, address, next of kin, records of appointments, visits, telephone calls, your health records, treatment and medications, test results, X-rays, etc. and any other relevant information to enable us to deliver effective medical care including your feedback to improve and monitor our services.

How we will use your information

Your data is collected for the purpose of providing direct patient care; however, we can disclose this information if it is required by law, if you give consent or if it is justified in the public interest. The practice may be requested to support research; however, we will always gain your consent before sharing your information with medical research databases ([Link to patient information](#)) such as the Clinical Practice Research Datalink and QResearch or others when the law allows. Specifically we as a surgery support [CLASP](#) Cancer survivors support programme , [TARS](#) A smoking research programme and [CCP](#) Arthritis prevention research programs which you will only be involved with if you opt into these programs. There may be changes to these programs as time elapses but you will never be included in any research without your express consent.

In order to comply with its legal obligations, this practice may send data to NHS Digital when directed by the Secretary of State for Health under the Health and Social Care Act 2012. Additionally, this practice contributes to national clinical audits and will send the data that is required by NHS Digital when the law allows. This may include demographic data, such as date of birth, and information about your health which is recorded in coded form; for example, the clinical code for diabetes or high blood pressure.

Processing your information in this way and obtaining your consent where appropriate ensures that we comply with Articles 6(1)(c) our legal obligation to do what we do, 6(1)(e) to carry out our public task and 9(2)(h) in the provision of health or Social care.

Who We Share Data With

In order to deliver the best possible service, the practice will share data (where required) with other NHS bodies such as other GP practices and hospitals. In addition the practice will use carefully selected third party service providers. When we use a third party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. Examples of functions that may be carried out by third parties includes:

- Companies that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers, to include cloud based storage of data within the UK only; systems which facilitate appointment bookings or electronic prescription services; document management services etc.
- Delivery services (for example if we were to arrange for delivery of any medicines to you).
- Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).
- Push Doctor GP locum service, patients have to register for this service and consent to their medical records being used by Push Doctor.

Further details regarding specific third party processors can be supplied on request.

Maintaining confidentiality and accessing your records

We are committed to maintaining confidentiality and protecting the information we hold about you. We adhere to the General Data Protection Regulation (GDPR), the NHS Codes of Confidentiality and Security, as well as guidance issued by the Information Commissioner's Office (ICO). You have a right to access the information we hold about you, and if you would like to access this information, you will need to complete a Subject Access Request (SAR). Please ask at reception for a SAR form and you will be given further information. Furthermore, should you identify any inaccuracies; you have a right to have the inaccurate data corrected. You also have further rights regarding how your data is processed. Details can be obtained from the Data Protection Officer at Friary House Surgery.

Risk stratification

Risk stratification is a mechanism used to identify and subsequently manage those patients deemed as being at high risk of requiring urgent or emergency care. Usually this includes patients with long-term conditions, e.g. cancer. Your information is collected by a number of sources, including Friary House Surgery this information is processed electronically and given a risk score which is relayed to your GP who can then decide on any necessary actions to ensure that you receive the most appropriate care.

Invoice validation

Your information may be shared if you have received treatment to determine which Clinical Commissioning Group (CCG) is responsible for paying for your treatment. This information may include your name, address and treatment date. All of this information is held securely and confidentially; it will not be used for any other purpose or shared with any third parties.

Opt-outs

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care services, important information about you is collected in a patient record for that service. Collecting this information helps to ensure you get the best possible care and treatment.

The information collected about you when you use these services can also be used and provided to other organisations for purposes beyond your individual care, for instance to help with:

- improving the quality and standards of care provided
- research into the development of new treatments
- preventing illness and diseases
- monitoring safety
- planning services

This may only take place when there is a clear legal basis to use this information. All these uses help to provide better health and care for you, your family and future generations. Confidential patient information about your health and care is only used like this where allowed by law.

Most of the time, anonymised data is used for research and planning so that you cannot be identified in which case your confidential patient information isn't needed.

You have a choice about whether you want your confidential patient information to be used in this way. If you are happy with this use of information you do not need to do anything. If you do choose to opt-out your confidential patient information will still be used to support your individual care.

To find out more or to register your choice to opt out, please visit www.nhs.uk/your-nhs-data-matters. On this web page you will:

- See what is meant by confidential patient information
- Find examples of when confidential patient information is used for individual care and examples of when it is used for purposes beyond individual care
- Find out more about the benefits of sharing data
- Understand more about who uses the data
- Find out how your data is protected
- Be able to access the system to view, set or change your opt-out setting
- Find the contact telephone number if you want to know any more or to set/change your opt-out by phone
- See the situations where the opt-out will not apply

You can also find out more about how patient information is used at:

<https://www.hra.nhs.uk/information-about-patients/> (which covers health and care research); and

<https://understandingpatientdata.org.uk/what-you-need-know> (which covers how and why patient information is used, the safeguards and how decisions are made)

You can change your mind about your choice at any time.

Data being used or shared for purposes beyond individual care does not include your data being shared with insurance companies or used for marketing purposes and data would only be used in this way with your specific agreement.

Retention periods

In accordance with the NHS Codes of Practice for Records Management, your healthcare records will be retained for 10 years after death, or if a patient emigrates, for 10 years after the date of emigration.

What to do if you have any questions

Should you have any questions about our privacy policy or the information we hold about you, you can:

1. Contact the practice's data controller via email at admin.fhs@nhs.net. GP practices are data controllers for the data they hold about their patients¹
2. Write to the data controller at Friary House Surgery, 2A Beaumont Road, St Judes, Plymouth PL4 9BH
3. Ask to speak to the practice manager Alison Shelton, or her deputy.

The Data Protection Officer (DPO) for Friary House Surgery is Steve Shelton and he is based at Friary House Surgery.

¹ [BMA GPs as data controllers under the GDPR](#)

Complaints

In the unlikely event that you are unhappy with any element of our data-processing methods, you have the right to lodge a complaint with the ICO. For further details, visit ico.org.uk and select 'Raising a concern'.

Changes to our privacy policy

We regularly review our privacy policy and any updates will be published on our website, in our newsletter and on posters to reflect the changes. This policy is to be reviewed 03/03/2022.
